Remarks

Original heart pine floors, recently refinished, highlight this spectacular Riegelsville colonial. From the inviting historic wrought iron gate, to the expansive, open beam studio/guest quarters, with both a wood stove and LPG wall heater, and everything in between, you will be delighted. Featuring a renovated kitchen with a Heartland reproduction gas stove/oven, huge center island with ample storage and a most appealing double porcelain sink. A heated sunporch offers the perfect opportunity for a home office. High efficiency Carrier heat pump and central air , along with incredibly low taxes, provide comfort and savings. Overlooking the historic Delaware canal, your next home is just a phone call away.
